DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a method for making a mandrel, classified in class 205, subclass 70.
 - II. Claims 15, 17 and 18, drawn to a mandrel, classified in class 428, subclass 411.1.
 - III. Claim 16, drawn to an ink-jet printhead, classified in class 347, subclass 20.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Groups II and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the mandrel can be made using a different process, such as etching a glass substrate followed the formation of the metal layer without the steps of making a father mandrel or a mother mandrel. The ink-jet printhead could be made using a mandrel made by another method or by a different mandrel.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Manuel Quiogue on April 24, 2003, to request an oral election to the above restriction requirement, but did not result in an election being made. (Several attempts to reach Mr. Quiogue at the telephone number 360-212-0104 were made, but the operator was not able to locate Mr. Quiogue.)

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian L. Mutschler whose telephone number is (703) 305-0180. The examiner can normally be reached on Monday-Friday from 8:00am to 4:30pm.
